

# Leveraging Oracle Database Functionality for Security, Reliability and Availability

Conrad Bartels  
Peter Gregorowicz  
Anna Machaj  
Garry Sagert

# Our goals today

- Have a high-level discussion on how different institutions are leveraging Oracle database licenses and features and dealing with common questions and issues.
- CIO/Director level discussion; we are not DBAs!!!

# Questions

- Why do you use Oracle?
- What kind of Oracle licenses do you have?
- What is your Oracle environment?
- Are you using RAC, DataGuard?
- Are you using encryption or advanced security?
- How do you support Oracle under virtualization?
- Are you looking at any Oracle cloud solutions?
- What tools do you use for tuning/optimization?
- Have you considered an Oracle appliance?
