

Cybersecurity Professional Services Roster

Enhance your cybersecurity preparedness through planning, assessment and response services

Shared Services for Higher Education & Research

The aim of this roster is to bolster cybersecurity readiness among higher education members. This agreement grants access to skilled cybersecurity professionals possessing a broad spectrum of expertise, capable of tackling the various security hurdles prevalent in today's higher education landscape.

Benefits

Diverse Expertise

Access a comprehensive range of professionals with diverse expertise, covering security threat and risk assessments, incident response planning and testing, enterprise governance, forensic services, and breach response coaching.

Expert Guidance

Expert guidance through incident analysis, containment, eradication, and recovery planning to minimize the impact of security incidents.

Tailored for Higher Ed

Access to expert guidance in developing robust cybersecurity plans tailored to the unique needs of educational institutions.

Proven Track Record

Gain access to cutting-edge best practices provided by suppliers known for their proven track record in successful project delivery, emphasizing innovation, reliability, and adaptability to ever-changing cyber threats.

Capped Hourly Rates

Established capped hourly rates for each resource type and level of experience to ensure budget predictability and facilitate effective planning.

Rapid Response Services

Minimize the impact of a cybersecurity incident. This roster can be accessed to assist, through incident analysis, containment, eradication, and recovery planning.
