

# The Governance of Project Planning

Presented by Amandip Sidhu, Manager, Projects & Business Solutions, Douglas College Ian McLeod, CIO, Douglas College

## **AGENDA**

- Introductions
- About Douglas College
- Technology Governance at Douglas
- Operating Capital process and timelines
- Project Submissions
- Process for Approval
- Managing the Projects
- Summary
- Questions

### INTRODUCTIONS

- Amandip Sidhu, Manager, Projects and Business Solutions
  - Two years at Douglas; 8 years at Telus, 7 years at UFV
  - Manages strategic and departmental technology projects
  - PMP
- Ian McLeod, Chief Information Officer
  - Six years at Douglas, 5 years at Camosun, 5 years at BCIT

### ABOUT DOUGAS COLLEGE

- Established in 1970
- Named after Sir James Douglas, first Governor of BC
- 24,000 Students (Headcount)
- Approximately 1,900 employees (Headcount)
- IT Staff headcount 64 (Headcount including 2 Coop students)
- 2018/19 IT operating budget \$8.633 million
- 2018/19 operating capital \$1.1 million

### TECHNOLOGY GOVERNANCE AT DOUGLAS

- Multiple levels of technology governance
  - Board Technology Steering Committee (TSC)
    - (Sub-committee of board of governors)
  - Senior Management Team (SMT)
  - Enterprise Technology Steering Committee (ETSC)
    - Academic Technology Steering Committee (ATSC)
    - Learning Technology Steering Committee (LTSC)

### OPERATING CAPITAL PROCESS AND TIMELINES

Submissions start Sept 1 and close Oct 31.

### Categories

Under 10K cost – direct entry into OpCap site

10K To 100K – Medium size projects – Basic Charter process

100K + - Large charter process

Funding envelope for EdTech submissions under 100K – 1.7M in 2018/19

Scope, schedule, cost, resources – draft charters by Oct 31

ETSC reviews charters – project on a page – as part of overall November

Approval, Denial or further information needed-finalized charters by end of November

Finance review for available funding – SMT in December

Large strategic projects reviewed and approved by TSC – January

Board of Governors review and approve entire College Budget - March

# PROJECT SUBMISSIONS - POAP

PROJECT CHARTER ON A PAGE						
Project Name	18-08 Blackboard in the Clo	ud				
Alignment with College strategy Technology needs to be reliable, secure, fast and seamless.		Project Description				
		Move current on-grem version of Blackboard Learn and Community to the Canadian Hosted version. Eliminates hardware on-grem, freeing up multiple servers and 1Tb of storage. Staffing reallocation of 1.25FTE. Addresses current disaster recovery deficiency.				
Key Requirements		Scope				
Set up of test environment     Testing of hosted version with Douglas data     Migration of production data to hosted site		Includes	Cloud migration services BB Learning Advantage 8-15K FTE Production, Staging, Test, Direct Data access, 2 Tb storage Premium BB Support manager access

#### Project Administration

Date:

Project Number: Project Name:

Project Sponsor: Dave Taylor Project Manager: Regan Lal

Subject Matter Expert: CEIT Primary Contact:

Project Capital Costs:

Project General and Administrative Costs: Departmental FTE Effort (in days)

CEIT FTE Effort (in days)

#### Purpose and Objective

- Reduce risks associated with social media
- Improve work-flow and student experience
- Improve college-wide communications
- Improve social media presence and messaging
- · Manage risks associated with communications during emergencies

#### Alignment with Strategy

- Inspiring and relevant: We deliver an inspiring, challenging, and highly relevant educational experience, inside and outside the classroom.
- Technology and Facilities: Technology strategy and infrastructure at Douglas is forward thinking and modern, providing users with a reliable, secure, fast, and seamless environment that promotes innovation and leads to increasingly high levels of satisfaction and productivity.
- Aligned with AVED CIO's strategic themes: Stop delivering infrastructure and start delivering a Digital Experience; Move up the value chain and shift to CLOUD platforms; Do all this with security and privacy top of mind

#### Scope

The following are in scope:

 Purchase of two-year Hootsuite Enterprise license for \$37,500 per year, plus additional features outlined in attached proposal.

The following are out of scope:

Anything else.

#### Estimated Costs

Project Costs:

\$37,500 per year for two years.

Douglas College - Ed. Tech. Project Charter

Coquitlam Qmniyex Video Wall

#### Benefits

Direct Benefits (Cost Decrease):

 Time savings as all social properties will be available through a single interface, and users will not have to search numerous places to update information.

Indirect Benefits (Avoided costs):

· Maintaining and enhancing our reputation: Priceless

#### Soft Benefits:

- Reduced risk
- Improved communications
- Improved student experience
- · Improved brand presence

#### Governance/Communications

- · Covered under College Communications Policy
- Managed by MCO

#### Deliverables

Project Deliverable	Description	Completion Criteria
Hootsuite up and running	Hootsuite Enterprise enabled, social media accounts managed through product	Accounts managed through Hootsuite, rather than individually

#### Resources

Resource Name	Resource Skill / Role	% utilized	# of Days	Total Effort	Start Date	End Date

#### Assumptions

The following assumptions have been made in formulating the Project Charter for this project:

- Project will continue to have support and buy-in from Public Affairs, SSRM and International
- · Attached proposal is accurate and valid

#### Alternatives

Continue managing accounts as we do now and accepting the risk

#### Training

Provided by Hootsuite and Regan Lal

#### Documentation

See attached quotes

#### Timeline/Milestones

Milestones	Due Date	
Hootsuite enabled	April, 2018	
Training and onboarding	Summer, 2018
